

ORGANIC DRAGON FRUIT / PITAHAYA

ORGANIC DRAGON FRUIT / PITAHAYA

South America as a whole enjoys one of the finest weathers and altitude variations on earth, making it the most biodiverse region of all. Its coffee, fruit and vegetable growers are the most vulnerable and often excluded from traditional finance, Southlander financially wings and gives technical training to literally hundreds of organic food producers. The practices that strive to foster cycling of resources, promote ecological balance, and conserve biodiversity mastered by organic farmers in general are important to The Southlander Catalogue, our own technical staff is behind the establishing of day to day processes of hundreds of handpicked organic farms, most of them family owned, in order to establish itself as the ultimate partner in commerce when it comes to premium organic South American processed and bulk foods.

PRODUCT DESCRIPTION

The Southlander Catalogue “Organic Dragon Fruit / Pitahaya” offer includes the following and delivers under specific continuous orders or large batches of organic fruit directly from our organic farms.

ANALYSIS OF PESTICIDES

We comply with Ecuador's Organic Regulation, accredited by the IFOAM Accreditation Program on the Americas.

Less than 5% of traceable synthetic additives like pesticides, chemical fertilizers, dyes, and industrial solvents, remain after production, handling and processing of our organically grown agricultural products.

PACKAGING, LABELING AND STORAGE

Recycled corrugated cardboard boxes and plastic cable ties. All fruit and vegetables are shipped fresh overnight from varying temperatures between 2-8°C. Can be stored within the same varying temperatures up to 30-45 days before going bad, depending on the desired ripeness at the moment of harvest.

USES AND CATALOGUE PRODUCT CODES

Can be consumed or used as an ingredient for any other cooked or processed product.
